

SECRET NOFORN

9 January 1981

Note for DCI

SUBJECT: Dick Lehman Conversation with Richard Allen (U)

✓ 1. Re "Sources and Methods" Brief: Allen advised Lehman that he will put it on the schedule but that he has not yet done so. Allen indicated that he would advise Lehman as soon as we had a definite time. (Reagan is coming into town some time on the 14th and so it is more likely to be sometime between the 15th and the 19th.) Allen also told Lehman that he felt that Casey would be attending this session also. FYI: I understand that sometime on the 15th or 16th DoD will be briefing Reagan on the [] and Reagan's responsibilities. []

✓ 2. Re breakfast with Allen: Lehman advises that Allen is still interested in taking you up on the standing invitation for breakfast at Headquarters. Allen indicated today that, tentatively, Monday or Tuesday looked best. Lehman told Allen that Tuesday might be better but that he would check with you to find out if either day would be good. Looking at your proposed schedule for next week, it isn't clear when an early breakfast would be most convenient for you; however, you might want to have one and then turn Allen over to Lehman and/or anyone else to discuss what he wants (to allow you to pick up your regular schedule).

- Lehman said that if you have a preference he could be reached by the Ops Center this weekend.
- Allen is to call Lehman sometime over the weekend to find out if you had expressed a preference and/or to advise if either of those days was better than the other. If Lehman does not hear from you before he hears from Allen, he said he would call you at home over the weekend. []

P.S. Some additional items:

• [] you will be seeing [] Monday morning.

- There are three publications which may be ready for dissemination sometime next week: President's Report; NIE 11-3/8, Vol. I; and an NFAC publication on US-Soviet Defense Spending (dollar cost comparison). I don't know what, if any, decision or arrangements have been made to handle the dissemination of these to both the outgoing and incoming administrations. 

- Attached are the extracts from your cable requesting meetings with NFAC and DDO representatives regarding the subjects to be covered Monday afternoon (Eastern Europe and Western Europe).
